

INVERSIONES PALMETO LTDA

COSTA RICA

About Us

We are producers of ornamental plants in Costa Rica with 30 years of experience. We produce in 7 different locations in the Caribbean side of the country. The company started out as a small family business producing dracaenas and growing to become one of the biggest ornamental plant growers in Costa Rica.

We offer a reliable supply of a wide range of ornamental plants in all colors and sizes year round. We provide the client with the best product in the market and pay close attention to the needs of each customer. Exporting plants that

are strong and healthy, to make sure that buyers have a very high success rate.

Production is closely supervised to ensure quality, environmental sustainability and strong healthy plants. The material is packed to maintain quality and ensure phytosanitary control.

We are constantly developing new techniques to improve the production process to fulfill the highest quality standards of the market. We are currently exporting to the European Union, America, Asia and Oceania.
